ABOUT ME

An enthusiastic, self-motivated, reliable, responsible and hard working person. A mature team worker and adaptable to all challenging situations. Able to work well both in a team environment as well as using own initiative. Can work well under pressure and adhere to strict deadlines.

PROJECTS

Ecommerce website [Html, Css, React, MongoDB] | ○ Ecommerce.git   🌐

A web application to purchase different items. Users can choose different items from the catalogue provided and add them to their cart. For authentication a signup login page is also provided both for the admin as well as the user.Payment gateway is also added so that the users could pay for the items selected.

Text Utilities [Html, Css, React] | ○ Textutils.git   🌐

This app performs various operations on the text entered by the user. It converts the entered text into uppercase or lower case and even can remove extra white spaces. Word count and Character count is also displayed and the user can switch between light mode and dark mode.

Score Keeper [Html, Css, JavaScript] | ○ Scorekeeper.git   🌐

A web application to keep score between two players and with an option to reset the scores. User can set the winning score as per the game and can increment the player scores accordingly. If a player wins the game scoreboard is automatically reset to zero.
